

## THE JOURNEY—THROUGH MIDDLE SCHOOL MATH

### About EQUALS

The mission of EQUALS is to improve mathematics education for *all* students. We have a special focus on making math accessible to females, students of color, and children from bilingual and low-income families. EQUALS develops innovative curriculum materials to help children everywhere experience success in mathematics.

As leaders in the field of mathematics, equity, and bilingual education, our academic staff present workshops as well as write books for home and classroom use.

Our website at [www.lawrencehallofscience.org/equals](http://www.lawrencehallofscience.org/equals) contains information on EQUALS, our publications including FAMILY MATH books, and how we assist educators and families all over the world.
