For 50 years, The Lawrence Hall of Science has been at the forefront of science learning.

- Over 55 million learners have explored the skies through a Hall-designed planetarium experience.
- Over 200 million learners have used Hall curriculum in all 50 states.
- Hall staff have contributed countless publications and presentations that advance research and practice.
- Over half a million educators have participated in a Hall professional learning program.
- We have brought STEM to communities through our outreach vans, which have traveled over 6 million miles.
- We have activated generations of underrepresented youth towards STEM learning pathways.
- Each year for the past decade, 25% of K-12 students in the U.S. have used Hall materials.
- Over 200 million learners have used Hall curriculum in all 50 states.
- Our apps have received nearly 2 million downloads.
- We have developed dozens of assessment instruments that measure the progress of millions of learners.
- During the last 10 years, over 7,500 teens have participated in extended learning STEM programs.
- During the last 10 years, learners have made over 2.5 million visits to the Hall.
- 277 federal research and development grants totaling over $150 million.

These figures are estimated on available data as of April 2019.
